

Las Vegas, Nevada, January 30, 2009

NextGen Home Experience.

GigaCrete joined with NextGen to showcase PlasterMax products inside this incredible new home built in time for the 2009 Consumer Electronics, International Builders and World of Concrete Expos in Las Vegas. PlasterMax –IND over gypsum board and PlasterMax-ICF over Nudura ICF greets the visitors and is getting remarkable responses.

Paul Barnett is President of iShow, producers of the annual NextGen Home Experience, called Andrew Dennis, Founder of GigaCrete Inc and stated “ Can you get someone over here quickly, we are getting more people ask about the unique wall finishes than anything else in the house” The response to PlasterMax has been remarkable, most people walking into the house say “Wow, what’s that on the walls” and immediately go over and touch the material. Click on the link below to visit NextGen.
